

Students of this Gurgaon school win north India's biggest start-up contest

The principal of Lancers International School with the winning team

Students of Lancers International School have won one of the biggest start-up competitions of north India. The winning entries were – affordable electricity generating model and customised travel solution platform.

The affordable electricity model by the all-girls team comprising Vrinda Gupta, Rhidhima Sindhwani, Yagyata Mahajan and Sahithi Macharla won the best start-up title in the competition. Anubhav Gauba won the Best Founder title.

“Our school embraces the individuality of each learner. We build students’ self-esteem by identifying their abilities and make it a priority to focus and develop each child. We are proud that we are raising these children to be entrepreneurs of tomorrow,” said YK Sindwani, head of the school.
